<http://RunCynthiaRun.org/>

***Please share this invitation with others  
and bring your friends, family and neighbors!***

**On May 1st**, Cynthia McKinney will rally and march with dockworkers shutting the West Coast ports to demonstrate their opposition to the war. Also on that date, Cynthia will be with immigrant workers demanding dignity and human rights. In her letter of March 26, 2008 to the leadership of the ILWU, International Longshore and Warehouse Union, Cynthia wrote:

*Your powerful Longshore Caucus resolution, "For Workers' Action to Stop the War," and your decision to stop work on the West Coast docks May 1st, inspires all of us . . . Sadly, the Bush-Pelosi war policy is a formula for endless global conflict, deterioration of the rule of law among nations, and growing impoverishment, indebtedness and evisceration of workers' rights and civil liberties here at home."*

A handwritten signature of Cynthia McKinney in black ink.

*Although this event is organized locally to benefit the campaign, this model leaflet was prepared and paid for by the*
